

## Web Hosting and Email Services

AJM Automation Ltd Specialises in providing high grade web hosting and email services to small businesses, individuals, clubs and charities. Our hosting system are industrial grade with a 99% uptime guarantee, and we don't put unnecessary limits on functionality. Just choose how much disk space you need and we'll do the rest.

## What do I need?

All you need to start your website or get going with your new email addresses, is a web hosting package and a domain name e.g. mydomainname.co.uk.

## Hosting Packages

### Hosting 500

**500MB Disk Space.** Suitable for most websites that don't need lots of storage for photographs, music or videos. Plenty for personal and small business email accounts.

**£59.99 per year**

### Hosting 2000

**2GB Disk Space.** Ideal for web-sites that need a little extra storage for pictures, music, videos or lots of online email storage. Also useful for backing up your important files.

**£79.99 per year**

## Domain Names

**What domain should I choose?** There are many different options when it comes to choosing a domain name, which is made up of two main parts; your chosen name and suffix. The most common suffixes are .co.uk and .com, but there are others. The name can be anything you like, as long as it's not already taken. A few examples are given below.

[www.name.suffix] e.g. www.johnjonescarpets.co.uk or www.tattersleyartclub.com

Domain names vary in cost depending which suffix you choose. Please contact us or visit our website for a complete list of available suffixes and pricing.

**I have my own domain name.** No problem. If you have your own domain name, registered elsewhere, we will give you details of our nameservers to point your domain to your new hosting package. You don't need to buy another one.

## Fast, Secure, Reliable Web Hosting

Fast, secure and reliable web hosting for home users, small business and enterprise applications.

### What about Support?

We understand that sometimes you need a little help. At AJM Automation Ltd, we assign a dedicated account manager for the life of your hosting package, and give you their personal email address. This means that you will receive direct, friendly advice without waiting to connect to call centres, or sitting in a support ticket queue.

As an added bonus, we even give our customers free support for their websites and website code, even if we didn't design it!
