

Interact 7.0

HMI Software

Sold under licence from Parker Hannifin Corporation

Interact Version 7.0:

The level 1 HMI software with no limits.

No tag limits.

No alarm limits.

And now, no extra charge for optional modules.

Interact is a feature-rich software package that can be tailored to meet the needs of any HMI project. It offers the ease-of-use of Windows® for development, with the speed and reliability of an embedded runtime environment. Interact's modular configuration allows you to scale up from simple pushbutton panel replacement to full-function operator interface applications using the same software platform. Interact lets you build an application with 3-D panel tools, trending, networking, machine configuration and more.

Product Features:

• Development

- Easy-to-use Windows development environment
- Intuitive menuing and on-line help simplify application development
- Easily load your applications via CompactFlash and serial or Ethernet download
- Easily import 256 color bit-map images into applications
- Features like Interact's tag editor make it easy to design a standard application and adapt it to meet new machine requirements. Tags can easily be switched from one controller manufacturer to another.

• Runtime

- Comes bundled on CTC's full line of PA2 PowerStations
- Operator-friendly monitoring and alarming features create an intuitive HMI for operators, maintenance and support personnel
- High performance, reliable run-time environment
- Device drivers for most controllers and many other industrial devices are part of the standard Interact package

Interact 7.0 —

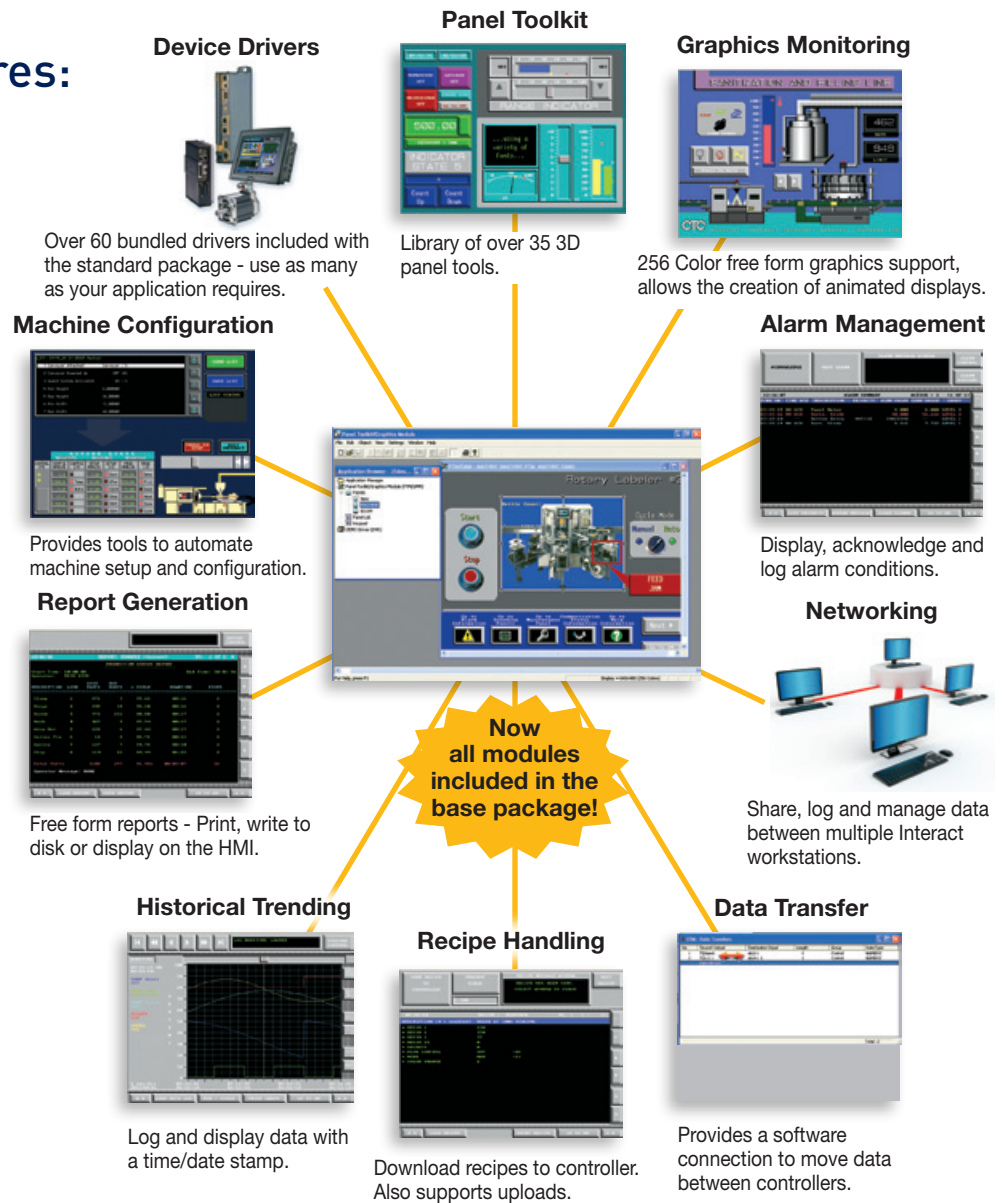

Modular Architecture that Grows with Your Application Needs.

Networking Features:

- Transfer Interact applications throughout your manufacturing facility - or to remote locations using off the shelf VNC/VPN tools.
- Share real-time data between factory floor workstations
- “Network aware” software architecture simplifies “centralization” of applications and/or program files on a network server
- Sends real-time data directly from the plant floor to MIS or supervisory stations

Connectivity

With Interact HMI, you get the connectivity you want without the complexity and cost you don't want. Interact includes 60+ device drivers, as well as Ethernet drivers for common controllers including Parker's ACR-9000 and 6K motion controllers.

See for yourself why Interact 7.0 is the top pick for machine level HMI software. To download your **FREE** evaluation software package, log on to parkermotion.com
